

Millennia of Proven Results

For thousands of years the beneficial effects of copper in the purification of water have been known and used throughout the world. From the ancient Greeks and Egyptians, biblical Israel, the far east and even our own pioneers discovering the western reaches of our country.

Still it wasn't until Hughes Aerospace developed an ionization system for the manned Apollo mission to the moon, did the private sector come to realize, the many commercial applications this ancient, but, rediscovered technology had to offer.

During the late 1970's experimentation with the ionization technology in the treatment of recreational water yielded incredible results and in 1990 our company took the science of mineral purification to the digital threshold.

And today we are recognized as an industry leader and pioneer in the field of alternative water purification and reduced chemical technologies and we invite you to experience the countless benefits and superior water quality that only mineral purification can provide.

The purification of water by copper ions has been a well studied and proven science for more than 30 years. Countless universities and research institutes have tested and published results that have excited the entire water treatment industry..

One of these published studies reported that copper ions at just 2 parts per million (PPM) in the presence of just a trace level of chlorine (.4 PPM) was more effective verses the E. Coli bacteria than was 2.0 PPM of chlorine by itself.

Also of interest to all pool and spa owners is the fact that, unlike chlorine... copper ions are totally unaffected by heat, Ultra V idet rays (UV) and bather load. This means a reliable source of protection and security in the purification of your families swimming environment and that's important !

Model	Applications	Warranty
P-15 not shown	7,500-40,000 Gal.	5 years controller
P-50 Shown	40,000-100,000 Gal.	5 years controller
P-100 not shown	100K - 200,000 Gal.	5 years controller

* The purification cell is sacrificial and needs to be replaced periodically and is warranted for 1 full year.

- REDUCE CHEMICALS BY UP TO 95 %
- ELIMINATE THE CHEMICAL ODORS
- GET RID OF RED, BURNING EYES
- NO MORE BLEACHED SWIM WEAR
- REFRESHING MINERAL PURIFICATION
- CLEAN, PURE, SOFT, SILKY WATER
- RELIABLE, SCIENTIFICALLY PROVEN
- A 100% NATURAL ALTERNATIVE
